PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U. S. Patent Office, Washington

22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients, and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on illegal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors can save the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fifteen years' practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects is just the reverse of all pleasure.

SATURDAY, MAY 20, 1848.

☞ The Belfast Signal says in reference to the State Convention that the beautiful little Scout has been engaged to take the delegates sail along the coast on the 23rd, to Augusta. She will start from Bangor and touch at the usual landings The trip will be delightful, and those who wish for a day's recreation, cannot have a better opportunity to enjoy themselves This is a very good arrangement and we trust that the Whigs in every town will be represented. The trip will afford a grand social occasion of much interest

☞ The Oxford Democrat pays the following just compliment to the Secretary of the Board of Education "The popularity of Mr Crosby has been constantly increasing from the very commencement of his official duties His natural talents by his untiring perseverance, and the fidelity, with which he has performed the onerous labors imposed upon him, have won the confidence and respect of the Board, and, we presume, of all the citizens of the State with whom, in his travels, he has had the pleasure of being acquainted

Penobscot Oysters.

Messrs Vinton and Porter have imported a large quantity of Oysters and have planted them in an excellent bed at the mouth of the river, where the water is just salt enough for them to grow fat and be right flavored The culture of the Oyster is a new branch of business for Penobscot, but the experiments already tried prove it will be successful Our people can now rely upon having fresh oysters right and plump at any time in the year We have tried some of the Penobscot Oysters and think them first rate

☞ A large Bear has for sometime been prowling about Glenburn and on Friday morning a number of the East Glenburn Farmers Club turned out with the determination to take him He was shot by Parker and Johnson two young men, and then attacked a man by the name of —— Wilder injuring him badly—Wilder was rescued, and the bear killed—He weighed two hundred the twenty seven pounds and was brought into the city yesterday and dressed

It is rather a sad time of the year for hunting, but it is fortunate however that the bear is out of the way.

☞ A large number of boys were playing about the Railroad depot in this city on Thursday evening as the train came in One of them jumped upon the steps of the last car just as it was going to rest, was immediately jammed against the wheel hub of a coach and barely escaped being crushed to death He appeared to be injured and was carried home with out being examined Parents should enjoin upon their children not to play about the railroad

☞ The Maine Farmer states that it is now a well established truth, that, when a young tree is in a vigorous state of growth, and the wood full of sap, just previous to its having made any hard wood, (say in June or July in most parts of the United States,) any branch may be taken off, without injury Therefore, at this stage of existence of the tree, pruning may be safely performed; giving it top that shape it is intended to assume when it attains its full size

☞ The Springfield Republican states that Mr David Isham, of Hartford, Conn. has invented a process by which cast iron can be converted into steel, almost instantly It requires but twenty minutes to convert a whole ton of iron into steel of the best kind It also states that he has been offered $12,000 for the right to use it in the State of Pennsylvania.

☞ The Saco Union states that Dr Augustus Mitchel of Portland is writing a series of articles recommending a sanatory retreat to Florida for persons afflicted with or disposed to pulmonary complaints. The climate of Florida he thinks the best in the world for invalids of this description, preferable even to Cuba.

☞ Dr Mann in his Family Physician intimates that at the meeting of the forthcoming loco convention he may consent to be nominated as a candidate for Congress in order to oblige his numerous friends and give them an opportunity to oblige him The Doctor is modest if nothing else

☞ The Belfast Journal states that a young man by the name of D Ingham, about 21 years old, belonging to Camden committed suicide in that town, by taking arsenic on Tuesday last, he lingered until Wednesday, when he expired, all remedies proving unavailing No cause is assigned for the act, but some ascribe it to domestic affliction

☞ The weather is very fine, the trees are putting forth their foliage and blossoms It is the season of hope and those ought to be happy men who can have the privilege of working out doors all day long

☞ If you are too poor to own a garden buy a tub and fill it with earth and cultivate a rose bush or a dahlia bulb

☞ The new engine has been put upon the Oldtown road and performs finely. She has a whistle which is the first upon the road.

☞ The Augusta Age tells the Washington Union that it must not say anything against the prize plan of the Walnut Province, as of course somebody is to be cheated again.

☞ Use plaster good people, plaster, not fuss about your sink drains, manure heaps &c to render them sweet and inodorous Plaster fixes what time destroyed the manure.

☞ We learn from our secret Telegraph that Hon Hannibal Hamlin was nominated last evening for the U S Senate by the loco foco legislative caucus at Augusta

☞ Benewra thanks to C T Judkins Esq of Manchester England, for foreign papers by the last steamship

☞ The Bath Daily Tribune has been enlarged and the paper enclosed in an entire new sheet

☞ The two members of the Maine Legislature have declared their first choice for President to be Hon. Levi Woodbury of New Hampshire

☞ The Calais Journal states that the long mere walk connecting the two villages is nearly completed. The women pay the bills

☞ We make up our Legislative compend from the extended reports published in the Thrice Weekly Age

☞ The Waterville Mail cracks up a Penobscot Salmon, served up at the Parker House in this town.

☞ One thousand hands are employed on the Androscoggin and Kennebec Railroad

Hints to Men of Business.

Be punctual and attentive Let your word be sacred, and your engagements inviolable—Keep your appointments straight Many a man has lost a fortune by carelessness The time they cost and trouble, (should they bridge,) to keep debt and credit, and the many bills that have been paid in vain in person, and the small interest they forget—that you have adjusted your account, and pay your bill again If you feel sure you have cancelled the debt, you may not convince your creditor of the fact. But if you have your receipt, his full recognition can be no matter of doubt

Common swearing stamps a man as destitute of the wish to be considered a gentleman, and of the knowledge of, that he thinks it no honor not to be worthy of praise

PROOF PROOF PROOF—The Rev J L Turner Pastor of the Methodist Episcopal church says in a letter to Dr Jayne dated at Erie county Pennsylvania on Oct 25th 1847 that he has been afflicted with the Dyspepsia and Sick Headache for about five years, which caused him great uneasiness and suffering. It is my opinion that one box of Sanford's Liver Pills cured him and cured Mrs Turner of the Dyspepsia and Sick Headache, after having used a variety of medicines without effect. Sanford's Liver Pills are decidedly the best medicine we ever used. We had tried all the popular remedies we could obtain, but found no relief until we used your Pills. We gave the Vermifuge to our children, and have not found a good Vermifuge to our children, and have not found a good Vermifuge to our children, and have not found a good

Messrs Ford & Grant Gentlemen—At the request of your Agents here, I send you my opinion of Dillow's Heave Cure As an Universal Condition Medicine, it will surpass any thing before known and all diseases arising from an impure blood or vital tubes, parotid and submaxillary glands, air cells lungs, and also from its gentle and alterative properties I deem good for the following diseases in a very limited degree of Farcy, Surfeit, Cheat Yoke, Dropsy of the Skin and Chest, Fever, Pleurisy Jaundice Blood, Inflamation of the Kidneys in a word I conceive it to be a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system I would call the attention of the public to the fact that many cases of the above diseases are contracted through neglect during the Moulting Season of changing the hair, which takes place during the most inclement of seasons in the whole year at which time if the horse is exposed to a draught of the pores of the skin close up and the circulation of the fluids cease If left in that condition Disease in some form, must ensue It is at this time that Dillow's *Invaluable Powder*, indispensable as a tonic in all the powders and fluids of the System it will cause all hair to fall off and turn in a new way the new and imparts to it a fine and lossy appearance

CAUTION—The astonishing success of Dillow's Heave Cure for the last two years, in the United States, has induced several persons to imitate and counterfeit it, and they even go so far as to caution the public against it, and endeavor there by to palm off their nostrums as the only genuine article We declare that *Dillow's Heave Cure* is the first article of the kind ever introduced in the United States, and we hereby offer the sum of *One Thousand Dollars* to any person or persons who will prove to the contrary Consequently all others must be imitations

Permanent Cure of Dyspepsia and Habitual Costiveness.

To Dr Rush

DEAR SIR—I have myself almost no occasion for your medicines as Pills I have used them many years, as occasion dictated and I have reason to suppose they have brought in thorough and permanent change in respect to the functions of the stomach From habitual costiveness, and the vomiting of nauseous and slimy stools, I am completely relieved The most formidable symptoms of Dyspepsia, with which I was once too well acquainted have so entirely passed away, that I hardly know what they were Any one you can make of them or a more full development of my case, is at your service

Except in an obstetric case your book (Family Physician) and Pills have been the only physician in my house for six years

There are many of my friends around, and more and more, who call for our Pills as a family medicine, and for chronic cases. Yours truly,

Horatio Weldo

Important Letter.

MESSRS CURTIS & SMITH

Dear Sirs—I herewith enclose you a few lines to your 'Downs Elixer' which for the benefit of the suffering if you think worthy you are at liberty to make public About a year and a half ago my mother became sick so that in a short time we began greatly to fear for her life Her symptoms were bad cough pain in the side and stomach night sweats, and other premonitory signs of pulmonary consumption We consulted our best physicians who gave her little or no relief, and finally pronounced her case incurable consumption She continued to become weaker and the symptoms more confirmed

About this time at the suggestion of a friend, we concluded to try Downs Elixer Having procured a bottle from your agent I S R Bryant of Eastport she commenced taking it At first it seemed only to aggravate the severity of the symptoms but in a short time her health began evidently to improve It cured her cough, relieved her night sweats and greatly improved the tone of the whole system After having continued its use most of the time for a year she calls herself cured She is now able to go about the house and superintend affairs as usual Under God we believe that to Downs Elixer alone she owes the preservation of her life, and the restoration of health and vigor We have also used it in our family in other cases for which it is recommended in the pamphlets with universal success Yours truly

(Signed) SWAIN P NOBLE BROWN

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country almost daily

DOWNS ELIXER is unquestionably the best article we offer for the cure of *COUGHS COLDS* and *CONSUMPTION* It is more certain to give relief in all cases of *ASTHMA*—diminishing the violence—than any thing hitherto used to the public

In cases of *WHOOPING COUGH* it needs only to be tried to give preference over all other remedies It immediately relieves the cough and renders it less painful and frequent than the use of Laudanum or Paregoric and in no case does it produce constipation

Pamphlets giving a full description to be had of agents in all of every Town and Village in the country and of the following who are prepared to sell at wholesale and retail
